To Whom It May Concern:

We have known Mike Keshishian for many years going back at least 17 years. Mike with his MSO team are working on several of our projects currently and we have always had and continue to have a very high regard for his ability to get the job done on time and without un warranted change orders. The MSO team has consistently been helpful with looking at our projects with preconstruction coordination, and value engineering suggestions to keep our projects on budget. They are in invaluable part of the team that we rely on when we do preconstruction services for clients.

We recommend Mike and MSO without reservation. They are a part of our company's success by being on our team and contributing to successful projects.

Please do not hesitate to reach out to me directly if you have any questions regarding MSO or Mike Keshishian.

Sincerely

A handwritten signature in blue ink that reads "Dave Frymer". The signature is fluid and cursive, with the first name "Dave" being more prominent than the last name "Frymer".
