Re: MSO Enterprises – Reference Letter

Dear Mr. Keshishian:

Thank you for your continued service and support to the many projects we have done together through the years. I appreciate your continued ability to provide accurate and complete proposals for our projects that both meet the expectations of the Owner and design team but also the project budget constraints. WEST Builders values our relationship and are always willing to bring MSO Enterprises into a project. I look forward to continuing our long track record of successful projects together.

Sincerely,

Mark Temple
